

## NEW BAUER JERSEY WASHING TIPS:

We have had problems in the past with the maroon bleeding on the white jerseys and turning the fabric a light pink color. The best suggestion is to wash new jerseys by hand in cool water and rinse numerous times. OxiClean and Shout color catcher have been suggested for use but you may choose another detergent. You may need to hand wash numerous times until the maroon is no longer an issue. Hang to dry. No problems with the black jerseys have been reported.

## HELMET STICKER PLACEMENT INSTRUCTIONS
