(1) Varsity Rosters may include junior varsity, redshirt, reserve and/or practice squad players and do not reflect club or intramural team participants.

\*\* Softball is an equivalency sport for NCAA scholarship purposes, so partial scholarships can be awarded to meet the limit per school. For example, an NCAA Division I school can award 24 softball players each a 1/2 scholarship and still meet the limit of 12 per school. See our page on [scholarship limits](#) for more information.

2014

(2) Average Athletic Scholarship is the average amount of athletically related student aid per athlete for ALL varsity sports sponsored by the specific school. Some athletes receive full awards, some receive partial and many receive none. Additionally some sports within a school may be fully funded, some partially and some sports provide no athletic scholarships. Private schools generally have higher tuition than public schools and the average award will reflect this.

2014

(3) Financial Assistance to all undergraduates includes ALL forms of student financial assistance including athletic and academic scholarships, grants and other financial aid. "% receiving" is the percentage of all undergraduates who received some form of financial assistance. "Average \$" is the average award to those undergraduates who received some form of financial assistance during the year.

(1) Varsity Rosters may include junior varsity, redshirt, reserve and/or practice squad players and do not reflect club or intramural team participants.

(2) Average Athletic Scholarship is the average amount of athletically related student aid per athlete for ALL varsity sports sponsored by the specific school. Some athletes receive full awards, some receive partial and many receive none. Additionally some sports within a school may be fully funded, some partially and some sports provide no athletic scholarships. Private schools generally have higher tuition than public schools and the average award will reflect this.

(3) Financial Assistance to all undergraduates includes ALL forms of student financial assistance including athletic and academic scholarships, grants and other financial aid. "% receiving" is the percentage of all undergraduates who received some form of financial assistance. "Average \$" is the average award to those undergraduates who received some form of financial assistance during the year.
