Walkway Banner Printing Instructions

2020 Desert Mountain Baseball

If the sponsor does not have an existing banner then we will print one.

Usually a logo and your company information is sufficient.

You get one free layout and one revision with every banner. Every order includes 30 minutes of free design time.

Artwork should be in vectored format, if possible. Adobe Illustrator or an .eps file is best. A high-resolution .pdf is also usable. You cannot just save a non-vectored file as an .ai or .eps file. It must be converted.

The minimum DPI is 100 at ACTUAL SIZE. For example, if your logo is 300 DPI at 2"x 3", then the most we can enlarge it before it pixilates is 6"x9" (3 times the image size). Logos copied off the internet will not be clear.
