Bat Models

Pennant has 4 flagship models that are slightly modified versions of existing models. If you have a specific model you wanted to copy, it is available as an option.

Model Name	Most similar base	Balance	Barrel Size	Puck/Torpedo
Marvin11	JRod	Slight End	2.48"	Y/Y
Chase25	Lindy12	Slight End	2.48"	Y/Y
MX13	RA13	End load	2.52"	Y/Y
GRT7	271	Most Balanced	2.49"	Y/Y

Multiple tapered knob options are available: Puck, No Knob/Pommel, Bell, Traditional, Grande (2.25")

Demos

While I have copies of each model on hand for you today, if you wanted a day for your team to try out all the models that I have to offer in different sizes, I can bring them to a practice/pre-game wherever you are in the state. Just shoot me an e-mail or text and we can coordinate. Currently have about 25 demo bats in 0.5" increments that can be used in cages with live balls.

Field Signage

If you have signage around your field, I'd love to discuss some further options.
