PENFIELD HOOPS PHILOSOPHY

The Penfield Patriots Basketball Program is committed to teaching our athletes fundamentals, sportsmanship, and work-ethic. These skills are essential to achieving success both on and off the court.

We are committed to showing players how to work hard and work intelligently so that they can continue to improve on their own. Great basketball players are not made by coaches but by themselves.

Athletes should expect to leave the camp with stronger skills, a better understanding of the game, and what it takes to compete at the next level(s).

**Games, discussions, drills and contests will create a fun learning environment **
