

ASSL Managers' Meeting March 12, 2026

Attendees: Doc Watson, Vince Schell, Bryan Ristau, Craig Lehmann, Tom Austin, and Keith Avery

1. Game times. The one game that was moved worked well; however, a number of players were missing. Previously, it was decided that next year the game times would be 10:30 for January and February then 9:30 for the rest of the season. **It was decided to defer this decision until later in the year.**
2. Do we want to extend the season into May? **No**
3. **We will develop a list of people who cannot tolerate the use of the AED and leave it with the device.**
4. Umpires, bye team players are not showing up and some that do not know the basic rules. **Managers will ask for volunteers to umpire and inform their players they should show up on their bye day. Further, if a pool player does not arrive by 15 minutes prior to game time they will forfeit their priority to be selected.**
5. **Asking for people who would be managers.**
6. **Vince will look into the Florida Senior games; when, where and the level of athleticism.**
7. **There is a question about the computer-generated schedule. Watson will supply the game schedules in future.**
