

## ASSL Managers' Meeting April 23, 2026

Attendees: Doc Watson, Vince Schell, Bryan Ristau, Craig Lehmann, Tom Austin, Keith Avary, Brian Finnegan, Robb Smith, Mike Douglas, Al Grasso and Tom Dury

### *Post Draft*

1. There was a question posed as to when the "5" managers' managerial voting duties cease. I would say that they end at sundown on the 23<sup>rd</sup>. **The managers were interested in having a "manager's roster". The details will be worked out in the future.**
2. Because this is a fun league, I think we should have an evening event, a "Senior Prom", and invite wives and lady friends to dance and have some drinks. The commander said it should be scheduled, and the cost would be \$100 per hour, but we would get a discount. **No.**
3. Runners who run past the base and turn left, does not always mean that they are intending to advance. There must be intent to make a play. **The consensus was that a player must show intent of making a move to advance to the next base. Also, it was suggested that the managers tell their players to turn right.**
