See what's happening this month at TGSL!

FALL IS IN THE AIR!

Fall is finally here and we are looking forward to the TGSL 2020 Fall Softball Season! We are excited to get the players back on the field after a *long and challenging spring!*

At Taunton Girls Softball League, the health and safety of our players, volunteers and families remains our number one priority, and we are committed to creating an environment where the girls can play softball, in the safest way possible. We have carefully developed a plan to resume playing softball, that focuses on players safety, practice procedures, game rules and TGSL complex policies all of which adhere to the guidelines set forth by the state and local government, as well as USA Softball.

Please read our **Return to Play Policy** for more information regarding TGSL policies and procedures for resuming softball under the "new normal."

We thank everyone in advance for their compliance with our policies and allowing the girls to get back in the game!

For more information about TGSL please visit our **website** and follow us on **Facebook!**
